

Environmental Policy

Banlaw considers that caring for the environment is an integral part in conducting its business and aims to achieve a high standard of environmental sustainability in conducting our business as a competitive organization.

Banlaw is committed to continuous improvement in policies, procedures and performance in order to protect the environment in accordance with the requirements of the law, clients and the evolving expectation of the community. It is the intent of Banlaw across all division to achieve this by:

- Continuously improving and reviewing processes to minimise environmental impact resulting from our operations.
- Complying with relevant environmental legislation, regulations and other relevant requirements.
- Communicating with all stakeholders including local government and community on environmental issues and where appropriate, contributing to the development of policies, legislation and regulations related to our operations.
- Providing adequate reference to the nature, scale and environmental impacts of our activities, products or services.
- Raising environmental awareness of our employees and training to make them aware of their environmental responsibilities and accountabilities in accordance with legislation, regulations and company directives.
- Providing adequate resources, personnel and training to ensure that our employees are aware of, and are able to fulfill their environmental responsibilities.
- Using a suitable contractor or processes to dispose of waste generated by our processes.
- Regularly monitoring and reporting environmental performance
- Defining the environmental goals and objectives at our Management Review meeting and review them during subsequent meetings.
- Review this policy every two years to ensure the policy remains relevant to the organisation and activities undertaken by the business.
